EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 12, change "." to --;--.

Allowable subject matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art neither discloses nor suggests the following limitations, in combination with the remaining elements as disclosed in claims 1 and 12:

- processing at least some of the data to create an export format, and selectively including at least one of the plurality of line types into the export format; and each line type included in said export format, including at least one of the associated export fields into said export format, including providing field length and position for each included export field; and performing an export operation from the database, using the export format to define a format for data exported from the database such as required by claim 1;
- a user interface component, to provide a user with an ability to create and modify the export format, including the ability to selectively include

the at least one line type into the export format, and for the included line type the ability to select at least one export field; wherein the system uses the export format to export data from the database in a format defined by the included line type and the at least one selected export field such as required by claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

Formal drawings (including clearer font) are required.
